

SPA AT GAIA HOTEL AND NATURE RESERVE

## Wellness at Gaia Hotel & Reserve

With only 51, 100 sq. km, Costa Rica is one of the most biodiverse countries in the world, you can find nearly 5 percent of all known plants and animal species in its national parks and nature reserves, many of which you can enjoy in our Nature Reserve.

With such abundance, Costa Rica's herbology tradition or "*medicina natural*" remains strongly threaded in the culture. In fact, *The National Herbarium* recognizes more than 50 widely utilized medicinal herbs, mineral-rich clays and oils, including our favorite beauty secret: coconut oil, widely used for its rebalancing and nurturing qualities.

At Terra Spa we have drawn on both this natural abundance and historical knowledge, to present you with a wellness menu that represents this rich heritage, part of the "Pura Vida" (Pure Life) lifestyle.

Let us take you on a journey and discover how you can also benefit from our herbal traditions enhanced by the professional care of our Spa therapists.

We look forward to helping you reach your wellness goals in Manuel Antonio, Costa Rica.
